Notable features:

A veritable wall of formstone. Number 1020 seems vacant at top, but looks appealing because of the formstone on the rest of the row. These are reasonably well-kept houses externally. Number 1000 has an unattractive modern store front. Numbers 1020 and 1010 alone are not formstoned.

Environmental context:

On busy Lombard Street; the two sizable Hornbeam street trees are very nice; many more are needed.
